

PUBLIC WORKSHOP

“Choose Your Own Acton”

Alternatives for Action

Thursday, June 23, 2011
6:30 p.m.
Acton Town Hall, Room #204

Purpose:

The purpose of this meeting is to present three alternative courses of action that would meet the previously developed planning goals in a variety of ways and to differing degrees. The main objective is to seek input on these alternatives as we move forward in the process of selecting a preferred course of action.

This workshop represents a continuation of the community conversation that will result in formulating recommendations for a community master plan for the future of Acton.

AGENDA

- 6:30 - 7:30 Visit Information Tables
Welcome and Introduction
Power Point Presentation
- 7:30 – 8:30 Break into Discussion Groups
- 8:30 – 9:30 Resume as Large Group to Continue Discussion
Next Steps

There are some decisions to be made regardless of which general course of action (alternative) is selected to help guide Acton's growth in the future.

Please let us know your thoughts about the following choices.

Service and Facility Choices¹

Whether, how, and where to provide a new community center and/or senior center

Whether, how, and where to provide better emergency response to North Acton, including potential new fire station

Do we want/need more recreation? If yes, what kind and where should it be located? Should NARA be further developed?

Are there any other such service and/or facility needs you feel should be addressed?

ADDITIONAL COMMENTS

¹ These are needs identified by participants in the planning process (in both Phases I and II).
