The public asked some questions about the Fitchburg line improvements and bridge to the center platform at the station.

Peter went over a history of the double-tracking project, but made the committee's charter clear. The committee is to make a recommendation on the parking deck, not on the rail improvements. Peter emphasized that town meeting approval would be required for a parking deck.

David suggested that we put forward to the MBTA a list of issues/conditions that are important to the town and ask if they are deal-breakers.

Dore' said that we should concentrate on mitigation issues. Dore' also suggested that we obtain information about projects in the other candidate towns for MBTA parking.

Tom will contact each of the candidate towns to find information on each of their parking projects.

Dore' will try to find the best person at the MBTA to contact for obtain further information on parking projects
