

Please join us for a participatory workshop:
Protecting Acton's Open Space through Subdivision Design

February 7th

7:30PM

Acton Town Hall Room 204

Learn the difference between conventional subdivision design and open space design subdivisions, what residential development options the Town of Acton currently allows by-right and by special permit, and how the Town can modify it's zoning to better protect our natural, historic and recreational resources within the parameters of Massachusetts State Law.

35 lot Conventional Subdivision

35 lot Open Space Design Subdivision

*Example from Stratford Hall, Weddington, NC
Design by Randall Arendt, Greener Prospects*

Co-hosted by:

The Acton Planning and Natural Resources Departments
