Public participation – Jason's kids say "Hi".

Discuss Long Term Implications of Operating Cost Assumptions – Committee discusses the impact of a 3.0% or 3.5% cost increase and its long term sustainability. Team recommends using a 3.0% increase which will lead to a \$3.5mn deficit in FY19. We do not want to recommend an operating override and a capital override in the same year. Discussion whether to use free cash/stabilization fund or untaxed levy capacity. Recommendation that we review Teacher's comparable metrics with surrounding committees. Discussion revolves around not using the stabilization fund.

Finish Point of View Discussion – Jason reviews the latest draft of the PoV document with feedback provided. OPEB valuation has come in for schools and looks more favorable than expected.

Finance Committee Business – Kindergarten numbers look favorable and well in excess of plan. Senior Center is open for business. Potential for Kmart lot to be developed.
