Variance- 11 Meadow Brook Road

The Health Department received a request from the homeowner of 11 Meadow Brook Road to allow for concrete footing to be placed approximately one foot to the existing septic tank.

Acton BOH Regulation, Article 11-6.1.3.1: Pier or sonotube- type foundations may be located a minimum of 5 feet from a septic tank and 20 feet from the soil absorption system when the bottom elevation of the foundation is equal to or deeper than the bottom elevation of the Septic tank.

The Health Department reviewed this request and does not recommend approval. Mr. Owen Deutsch , property owner stated that the deck is unsafe and needs to be replaced. The Health Department stated that the tank should be replaced to allow for replacement of the deck so that the proper setbacks can be met to the septic tank. The Board asked the Health Department to seek additional information and recommended continuing this variance to the next meeting.

On a motion made by Dr. Taylor, seconded by Mr. Conoby, the Board unanimously voted to continue this variance request to July 16, 2018 for the property located at 11 Meadowbrook Road.

Adjournment

On a motion made by Dr. Taylor, seconded by Mr. Kreuze, the Board unanimously voted to adjourn at 9:12PM.

Respectfully Submitted,

Weiyuan Sun
