Mr. Wagner introduced the members of the Board to the petitioners and the Board's procedure. Mr. Wagner listed all the exhibits from the folder that were submitted for the

record, as well as Design Review Board's memo response and a memo from Mr. Roland Bartl, Town Planner received on 4/24/2015.

Mr. Wagner stated the petitioners would like to reconstruct an existing nonconforming structure within the dimension of its nonconformity. The proposed building footprint will reduce the nonconforming front setback but will remain nonconforming.

The Board members reviewed the application presented. Board members were in agreement that completed architectural plans are needed to review. Mr. Wagner stated the new plans should be reviewed by the Design Review Board (DRB) and would like DRB to comment after they review the plans at their next meeting of May 20, 2015.

Ms. Guichard noted there was another issue the applicant's attorney raised, which the Board may want to clarify prior to requesting the DRB's comment on the revised plans. She noted that the applicant submitted a letter from their attorney several weeks after their original submission suggesting the desire to raze the building and rebuild a new building within a non-conforming setback. She stated that the Planning Department did not agree with the attorney's interpretation of the Zoning Bylaw.

Mr. Wagner stated he would like the Planning Dept. to revise their memo to include the Department's review of the applicant's attorney's letter.

The petitioners agreed to forward the architectural plans to DRB to review at their next meeting and for the Planning Dept to review and to return to the Board of Appeals to their next meeting date.

Mr. Wagner motioned to continue the public hearing to the next meeting date of June 1, 2015 at 7:45pm, Mr. Fallon 2nd; all in favor.

Mr. Wagner listed all the exhibits from the folder that were submitted for the record, as well as Engineering Dept's memo response and a memorandum from Ms. Kristen Guichard, Assistant Town Planner received on 5/1/2015.

Mr. Wagner stated the petitioners are proposing to construct two (2) additions to the residence at 19 Henley Road.

The 1st addition will be a 12' x 8' addition to the first floor and second floor that will increase the size of their existing bedrooms with a garage stall below. The roof line will remain the height of the existing roof.

The 2nd addition is a 14' x 24' deck with roof and screens on the side walls. The roofline will be slightly below the existing roof line.

The Board members reviewed the application presented. Board members were in agreement that the architectural plans and location plan needed clarification. In addition architectural elevation plans should be submitted.

Ms. Guichard noted the Planning Department would need to update their memo to reflect the clarified description and total expansion explained at the meeting.
