The Town of Acton is working to improve the travel experience for all road users - motorists, pedestrians, transit users, and bicyclists - through the development of an Updated Complete Streets Prioritization Plan and we would like your input! A DRAFT Prioritization Plan has been developed, including over **70 projects**. These projects were identified via previous plans and studies, a needs assessment, and most importantly, your initial feedback! We received over **300** comments as to where you'd like to see improvements made. Projects include, but are not limited to, intersection redesigns, pedestrian and bike network connections, street reconfigurations / traffic calming, transit investments, pedestrian crossing modifications, and environmental/streetscape investments.
