LEGO® CIVICS PROJECT

Build Your Lego City. Then Learn to Govern it...

As our students build a fully-planned and intricately-designed Lego city, they also learn to govern it. Students learn about elections, laws, city planning, economics and the environment as they serve on a city council which must make key governing decisions about their city. They work on committees to design their official city flag, design their city's currency and create a constitution of laws. Students have the opportunity to run for mayor, open their own business, debate city issues and design city buildings. Social studies, history and civics have never been so fun!

GUIDED FOREST THERAPY WALK

Peel the layers of stress away and support healing by experiencing the medicine of the forest on this Forest Therapy walk with Certified Forest Therapy Guide, Nadine Mazzola. Shinrin Yoku is a term that means “taking in the forest atmosphere” or “forest bathing.” It is unlike any nature walk you have experienced before. We focus on our senses to develop an immediate connection with the forest. This is a very relaxed, slow, and mindful way of walking that has many proven health benefits. It’s fun, easy and relaxing! We’ll do a series of invitations (activities) to engage our senses, hone intuition and connect with the natural world around us. The walk will still be on if it’s raining, unless it is a really big downpour or violent storm. If it is raining, it’s important to have a waterproof shell including pants, and many people bring umbrellas. Please bring a snack or light lunch and water bottle, or if the day is cold, you might want to consider bringing a thermos with a hot drink. Wear comfortable clothing and good shoes for walking on easy trails & sunscreen/hat. If the weather is cool you should also dress to stay warm! I suggest you bring one more layer than you think you will need. We will be moving at a leisurely pace and in the shade so temperatures may be cooler than you expect. **MIN: 3 MAX: 12**

Nadine will lead you through invitations: sensory and interactive experiences to reap the healing gifts of nature. Relax deeply, raise your mood, immune system, and sense of coherency.
