

# REQUEST FOR PROJECTS

## Kelley's Corner Legacy Trees

### Project Overview

Acton has saved some downed oak trees from the Kelley's Corner construction project in hopes that something can be created from them and placed near where they once grew. The goal is to support the Town's sustainability efforts while creating stronger village centers and beautifying our landscapes.

Acton seeks proposals for projects which would transform the wood from cut trees into an object that would benefit the community. This object would then ideally be placed at or near Kelley's corner. Examples of potential pieces include benches, signs or sculptures; however, any proposal that fits the description above and is in line with the community values listed below is welcome

The Town will award the selected creator(s) with a stipend of **up to \$1,000** and ensure their name is on the work. A trade for wood could also be arranged.

### Project Selection

The Town will select project(s) that reflect the values of our community:

- Inclusivity
- Sustainability
- Accessibility
- History

The **deadline** for proposals is  
**March 21st, 2023 by 2:00 PM EST.**

### Materials Overview

- **Quantity:**
  - Number: 6-8 logs
  - Approximate dimension: 10-16 feet long, ½ to 4 feet in diameter
- **Storage:**
  - Currently stored at Acton's DPW facility
- **Cut** - November 2022
- **Sealed** - December 2022

### Propose a Project

A virtual site visit to understand the context of Kelley's Corner, and possible locations for pieces will held via zoom on **March 7, 2023 12-1PM**.

If you are interested in submitting a project proposal, please **complete the short google form** - [click here](#), scan the QR Code or contact the Planning Division:
