

# ACTON COMPLETE STREETS PRIORITIZATION PLAN UPDATE

The Town of Acton is working to improve the travel experience for all road users - motorists, pedestrians, transit users, and bicyclists - through the development of an Updated Complete Streets Prioritization Plan and we would like your input! Projects can include, but are not limited to, intersection redesigns, pedestrian and bike network connections, street reconfigurations / traffic calming, transit investments, pedestrian crossing modifications, and environmental/ streetscape investments.

## What is a "Complete Street"?

Complete Streets are roadways that *safely and comfortably* accommodate *all users, regardless of age and ability or mode of transportation*. Users may include, but are not limited to: pedestrians (including persons using assistive devices), bicyclists, public transit users, and motorists.

**Where would you like to see improvements for walking, cycling, driving, and public transit? How would you like to see projects prioritized? We want to know!**
